- Proactive Problem Solver
- Strong Work Ethic
- Positive Attitude
- Teamwork, Communication, Leadership

### Education

#### B.S. Computer Science

University of Central Arkansas

### School Activities

- UCA Cru Student Leadership
- High School Varsity Soccer Captain

### Experience

#### Euronet Worldwide

Software Developer

Oct 2022 – Present | Little Rock, AR

- Develop and maintain core Java backend services for the Payments Hub, including ISO 20022 real-time payments and ACH batch file-processing components, from initial build through ongoing enhancements.
- Configure new workflows, handlers, and data transformations; implement unit tests; and develop DAOs, caches, and APIs, including improvements to core handlers and core file-processing capabilities.
- Collaborate daily with a distributed international team across the USA, India, and Germany, working closely with QA, implementation, and business analysts to deliver sprint work and resolve issues.
- Help manage Git version control and branching to keep feature work in sync with the main develop branch and support clean integrations.
- Participate in cross-team code reviews for the Payments Hub and other related projects to improve code quality and maintainability.
- Provide full-stack support by debugging and resolving Vue.js UI issues and investigating routing/authorization problems in external services, either coordinating with the owning team or implementing fixes directly when possible.

#### The Patio Cafe

Restaurant Server

Jun 2020 – Oct 2022 | Conway, AR

- Became a lead server who could stand in as a manager when needed and helped train new hires.

### Side Projects

#### Freelance Client Projects
